YALE, Sept 2

TO THE BRITISH COLONIST:—Announce me a candidate for Yale district.

dw T. B. HUMPHREYS.

Messrs Pfunder & Co., Portland.

GENTLEMEN:—I enclose you P.O.O. for last lot of Oregon Blood Purifier, which came safe to hand. It is a regular CURE ALL. I have got entirely rid of my RHEUMATISM and have cured all kinds of chronic cases by making them go according to the directions, some of them the doctors had given up. Why don't you send a lot out here and start an agency? You could sell any quantity of it, as everybody who has tried it says it is the best medicine they ever took. With many thanks, and wishing you every success,

I remain, yours truly,
W. H. PARSONS,
3m Denver, Colorado.

IT HAS STOOD THE TEST OF TIME

For twenty-five years has Dr. Fowler's Extract of Wild Strawberry been before the people, and its popularity is today greater than ever, because it has proved reliable in the treatment of all forms of Bowel Complaint incident to the Summer season. (24)

The indications of the approaching season seem to threaten an unusual amount of the various forms of bowel complaints. Our readers would do well to supply themselves with some reliable remedy like Doctor Fowler's Extract of Wild Strawberry, as a safeguard against sudden attacks of Cholera Morbus, Colic, Dysentery, &c., that unless promptly treated are often suddenly fatal. (20)

NEW ARRIVAL OF PIANOS.—Messrs. Bagnall & Co. have the most splendid display of Pianos and Organs ever exhibited in the city; some choice Violins, Guitars, brass and nickel-plated Cornets, and everything pertaining to the music trade. Pianos and Organs for hire. Tuning and repairing by J. Bagnall. Government street, Victoria. *

THE brightest flowers must fade, but young lives endangered by severe coughs and colds may be preserved by Dr. Thomas' Eclectric Oil. Croup, whooping cough, bronchitis, in short all affections of the throat and lungs, are relieved by this sterling preparation, which also remedies rheumatic pains, sores, bruises, piles, kidney difficulty, and is also economical. 57

ALBO CARBON LIGHT reduces your gas bill nearly one-half and enriches the quality of bad gas. The generator can be affixed to existing gas fittings instantly. The Carbon is sold at the following reduced rate: 3 lbs, 50 cts; 7 lbs, $1. Langley & Co. sole agents for British Columbia. 2w3p *

The nearer we follow nature in the treatment of disease, the more successful we are. Dr. Fowler's Extract of Wild Strawberry is Nature's Specific for Cholera Morbus, Dysentery, Colic, and all forms of Summer Complaints. It speedily cures Canker in the stomach or bowels, and is safe for infants as well as adults. (23)

Scrofula is a depraved condition of the system often hereditary, and characterized by indolent tumours, glandular affections, bad blood and a low condition of vitality that tends towards consumption, which is realy Scrofula of the Lungs. Burdock Blood Bitters cure Scrofulous diseases from a pimple to an Abscess, by purifying the blood, correcting the secretions and giving a healthy tone to each organ. (19)

ROYALTY.—The new exquisite perfume Princess Louise only 50 cts. a bottle, at Moore & Co's. *1m

FELLOWS Syrup of Hypophosphites, by restoring strength to the nerves and muscles of the stomach, cures dyspepsia, which is but the result of loss of nervous strength, followed by muscular relaxation. *

JUST RECEIVED from the manufacturers a fine assortment of meerschaum, briarroot and other pipes, which will be sold at reasonable rates by H. Short, gunmaker, Fort street. *

WHY suffer with a cough or cold when you can get the French Balsam of Honey? Sure cure. Fifty cents a bottle. For sale only by Moore & Co. 1md&w

A SURE cure for dyspepsia. The Oregon BLOOD PURIFIER. Use before meals as directed. *

A GREAT vegetable tonic for delicate females, is Pfunder's Oregon BLOOD PURIFIER. *

DR. CHAN TAN TONG from Canton,—Skillfully and confidentially treats diseases of men, women and children. Office Government street, near Johnson street.

L. P. FISHER, Advertising Agent, 21 Merchants Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

THE POLITICAL CONTEST IN YALE.

A bare probability of a three-cornered contest in this large and important district to fill the vacancy caused by the death of the late PRESTON BENNETT cannot be too strongly deprecated. It is just possible that such a course, if persisted in, will split up a formerly united representation and complety stultify the influence of the Yale members in the next House by allowing the rejected of Lillooet and Victoria districts to creep in through a division of the Opposition vote. This vote, which should be concentrated on one candidate, is sufficient to carry all before it and roll up such a majority against the politian charlatan now stumping the district and making himself everything to everybody, as would completely annihilate all his hollow and ungrounded pretentions to statesmanship. But if, unfortunately this large vote should be divided between the two candidates who were nominated on Friday last with the possible result above indicated the Yale electors will regret it for all time. It is not too late to obviate such a deplorable contingency. If one or the other of those gentlemen can be induced to follow the patriotic example set them by Mr. Archibald Irwin the defeat of the more than Janus faced "Tom" on the 13th instant is a foregone conclusion. Nothing can be clearer than that such an arrangement should be brought about. The Nicola electors may, and no doubt have, strong claims to urge in favor of a representative from their section of the district; but there are times when claims, however strong, should be waived for the public weal; and it would be a graceful act on Mr. Armytage's part, if Mr. Martin can command a larger vote in the district than himself, to retire and allow a solid support to be given to an Opposition candidate.

The Contest in Yale District.

TO THE EDITOR—It is alleged that Mr. T. B. Humphreys has been the recipient of a requisition signed by 127 electors of the Yale district, and he has published a reply. It is not my purpose or perhaps my province at present to canvass the taste or judgment of the gentlemen who signed the aforesaid requisition; but a perusal of the reply makes it imperative that the contents should be noted. A glance at Mr. Humphreys' political career will assist in forming a correct opinion and placing a just estimate upon the value of his political protestations and claims. In doing so I shall be obliged to address myself to him in a general manner. Mr. Humphreys regrets the sad event that deprived the country of the valuable services of the lamented Preston Bennett. Now, who in this country is so ignorant as not to know that the greatest portion of Mr. Bennett's political career was devoted to the most uncompromising opposition to a trio of political charlatans yclept a government, of which Mr. Humphreys was one; and now, at this late hour, Mr. Humphreys has the honesty, whatever may be the motive, to confess that Mr. Bennett's services were valuable. Mr. Humphreys esteems the desire of those gentlemen signers to elect him as a very great honor. (No doubt he does.) He believes it to be a proof that his political services have not been unappreciated or forgotten. Now, in the name of all that is audacious, Thomas Basil, to what services do you refer? What is the name or the nature of them? Who is foolish enough to think that you are prejudiced against Island or Mainland, or that you care a fig for either of them unless for selfish ends? You are willing to accept of confidence and benefits from either or both if they will bestow them upon you, and you would as willingly consign both to perdition if they mar your plans. You have been a resident of British Columbia for twenty-four years. (Very good.) You have been a representative for fourteen years. Ah, there is the rub! What have you done in these fourteen years? Nothing, *nothing*, NOTHING, unless for yourself. You initiated no new measures; you elucidated no original ideas; you persistently opposed any and all beneficial legislation introduced by any government in your capacity of representative on the floor of the house, and in doing so your conduct might truly be characterized as boisterous and bullying, puerile and pugnacious, loud-mouthed and long-winded, inconsistent and impertinent, until in an evil hour for Mr. Elliott he took you into his government. You did not long aid him with your counsel or adorn the executive chamber with your presence; but returned to your old line and reveled as natural as life in the luxury of blathering bombast and impudent abuse, until you found consolation in a kindred spirit by joining the standard of Anthony Walkem as a member of his government, and how true or false at heart you have been to Walkem I will not pretend to say, but your conduct during the last session of parliament goes far to show that you were faithless to him; and it is shrewdly conjectured that you would be equally as faithless to the men to whom you proposed to sell him and your other colleagues when you made overtures to the Opposition to lend your aid to demolish the Walkem government and build another upon the ruins, if you would only be permitted to sit upon a corner-stone in the new edifice. But your loyal offer was promptly and properly refused. Further, it is boldly asserted that you caucused under lamp-posts and in barrooms with men adverse to the government of which you were a member with a view to its overthrow, that you then complained bitterly of the treatment you received at the hands of your colleagues; owned yourself to be a cypher that could do nothing—(but that was false, for you could and did draw your salary.) On these occasions you exhausted your extensive vocabulary of vituperation and epithet, describing the wickedness and corruption of your colleagues, and now it would be difficult to disabuse the minds of your audience on those occasions of the idea that you were pumping them for news in the honorable capacity of a government spy. If there is any truth in the adage that the devil is good to his own you have certainly got into the bad graces of that ancient friend of evildoers, for while he continues to extend his protection to your colleagues he has deserted you. Walkem has made his escape to an asylum of comparative safety by obtaining a seat upon the bench of the supreme court of the province. As it is out of his power or any other man's to degrade the position he occupies, let us hope that the position will elevate the man. Mr. Beaven hangs on to the emoluments of office like a limpet to a rock, and hopes that by buying Armstrong he has secured assistance to "figger" out some solution of the difficulties that surround him in governing with a minority. Such men are barnacles upon our vessel of state; they retard its progress and hasten its decay. Still they are safe for a little while, and you are out in the cold and will stay out; but the fault is your own, for you had opportunities. Lillooet held you up by the chin until they sickened of it and discarded you, and the fate of your henchman Brown at the late election extinguishes the last ray of hope for you in that quarter. Victoria district electors gave you a trial and found you incompetent and unworthy of their confidence, and they spewed you out of their mouths at the polls in the late election. Now you come before the electors of Yale with a reply to a requisition that is charateristic of the politician that penned it. You pay a well-deserved compliment to the memory of a public man who has passed away; you acknowledge that the district you now aspire to represent has been unfairly dealt with by a government of which you were a member, and you promise to obtain the justice for Yale district as a member of the house that you withheld from it as a member of the government. You point to your 24 years' residence in the country and 14 years' service as a member of parliament, and you do not name one meritorious act of yours in your public capacity either as member of parliament or member of either of the two governments you belonged to. The greatest merit to which you aspire is a claim to be a British Columbian. We must admire your modesty when we remember that the filthiest Siwash we meet upon the street has a claim superior to yours, for he is to the manor born.

Now, sir, if you can secure your election for the district of Yale you will establish a claim, and that is the right to be considered the most accomplished and successful political adventurer of the day; and the people that elect you will have an equal right to be considered the most misguided men that ever converted their right of franchise into the curse of their country. R.

The Driard House.

TO THE EDITOR.—The burning of this well known and popular hotel is a serious loss to the community at large the number of people attracted here by our beautiful scenery and roads, our fishing and hunting, will sensibly diminish from the lack of proper accommodation and thus the amount of money brought into the province will decrease in proportion, as there is no longer a really first class hotel for the better class of tourists to stop at.

The proprietors, Messrs Redon & Hartnagel, have been several times offered inducements to go across the Sound to take charge of a larger and better house in a more populous city, and you can depend upon it that fresh offers will soon be made; if no inducements are held out to them by Victoria to remain, they, in their own interest, will most probably accept the most tempting offer. Now, Sir, I think the Mayor and Council should be petitioned to grant a sum of money, say $1,000, for the rebuilding of the house on a larger and more commodious scale, and this sum should be supplemented by a general subscription among the business men of the city and the citizens generally. I feel confident that should this idea be taken in hand by a few energetic men it can be put through in few days and Victoria will retain the reputation of having the best hotel on the coast.

Volunteer Fire Departments, and Paid Fire Brigades.

TO THE EDITOR.—It is generally conceded that for many years past the members of the Victoria fire department have rendered good service by their voluntary act in combining to assist in the prevention and extinguishing of fires. Such a combination I understand is generally formed in all new towns where the resources of revenue are insufficient to maintain a properly paid organisation. The city of Victoria, however, is now no longer in need of a volunteer fire department nor is it right that she should continue to have one. The revenue derived from licenses paid by the various insurence offices and the heavy tax of one eighth of one per cent. paid by all persons insuring within the city limits constitute a fund sufficient to maintain a fire brigade thoroughly trained and disciplined and which the importance of our city now urgently demands.

This matter was brought forward some time since, and the municipal council will render a valuable service to the community if they take it up again in earnest and place our facilities for prevention and extinguishing fires on a satisfactory basis.

The B. C. Agricultural Association.

TO THE EDITOR:—Will you please insert in your paper that diplomas were awarded at the agrirultural exhibition to J. Spratt for stoves; Burns & Co. and Fellows & Prior for agricultural implements. The judges made especial mention of the Brantford clipper plough and Climax fanning mills exhibited by Burns & Co. Mr. Robt. Stevenson was awarded the prize for the best walking, and the second prize for three-year-old horses.

AMONG the pains and aches cured with marvellous rapidity by Dr. Thomas' Eclectric Oil, is ear-ache. The young are especiall ysubject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are especially subject. The Governor-General at Yale.

(Special Dispatch to The Colonist.)

YALE, Oct. 2.

His Excellency the Governor-General and party arrived at Emory this morning at 10 o'clock where they were met by Mr. Onderdonk, who brought them up on the train to Yale. Here their arrival was greeted by a grand salute of guns. The Governor-General was met by a reception committee of 12 and escorted in a carriage through the town to the arch erected on Front street, where an address of welcome was presented. A felicitous reply was made by His Excellency. The streets of the little town are entirely lined with evergreens and flags are fluttering everywhere, and as many from the line of the railroad are in town it has put on quite a gala appearance. His Excellency and party will leave early to-morrow morning for the upper country, expecting to reach Savona on Wednesday evening.

What Some People Say.

That young Gilligan is better and may get well.

That in consequence of the stupid telegraphic arrangement we are unable to give the passenger list of the incoming steamer.

That a new (Mc) Broom sweeps clean. At least that his creditors found he had made a clean sweep of his grocery stock yesterday.

That rumors of the erection of a new Driard House on a more extensive scale than the late one are heard.

That Redon & Hartnagel will reopen their restaurant in a few days.

That many articles were stolen from the fire on Sunday—including many small things from the Driard House rooms.

That reception arches and decorations should be taken down, as the evergreens are getting dry enough to burn with great rapidity should they ignite either from accident or design.

That all persons having certified vouchers in connection with the reception decorations can get their money on application to the honorary treasurer, Mr. W. C. Ward, at the Bank of British Columbia.

That the town of Yorkville has agreed to join Toronto.

That mosquitoes seriously annoyed the British marksmen at Creedmoor.

That Mrs. Garfield has bought a $50,000 residence in Cleveland.

That it was T. Tugwell and not G. Richardson who took the first prize for the best three varieties of potatoes at the show.

That Shears & Partridge have received their autumn stock of goods. Rich, rare and beautiful, and very low.

That an Indian was arrested by the police with property stolen from the Driard House fire in his possession.

That a change in the fire department is imminent.

YALE NOMINATIONS.—Messrs. Martin, Humphreys and Armytage were nominated at Kamloops on Friday for the local house.

The Fire on Sunday Morning.

The worst fears expressed while the Broad and View street fire was in progress on Sunday were realized in the result. The upper flats of the Driard House were entirely destroyed. The cupola fell about a quarter to four o'clock—an hour and a quarter after the fire was discovered. About that hour four powerful streams from the steam engines were turned on the hotel building, and about 7 o'clock the fire was declared "out." It would be difficult to picture a more complete ruin than the Driard House now presents. The Mansard roof and the upper flat are entirely gone and the second flat is about one-half destroyed. The lower rooms are filled with half-burned furniture, broken mirrors and crockery, and blackened embers that fell from the floors above. The stairs are choked with plaster and charred wood and broken furniture, and the whole establishment is saturated with the water which Elk Lake freely contributed from her bountiful store to stay the conflagration. Two blackened chimneys remain to mark the spot where the lofty roof lifted its head, and the blackened and burned cornices, fractured window-panes and general condition of dilapidation and wreck are very saddening.

The ruins of Bowman's stable were still smoking yesterday, but Mr. Burgess was engaged in running a line for a fence to take the place of the one destroyed. Mr. Bowman loses several sets of harness and a quantity of hay and feed in addition to the buildings; but nearly all his moveable stock was removed before the fire had gained much headway. In attempting to save the property Mr. H. Wright was nearly suffocated, and only managed to get out in the nick of time to save his life. The Phœnix Fire Insurance Co. is the sufferer in both instances—$8000 on the Driard and $250 on the stables.

The firemen are severely censured because of their conduct at this fire. Their attention was mainly directed towards the stables, where at the critical stage all the streams were concentrated, instead of one of them being directed towards the roof of the Driard House where blazing pieces of wood lodged a long time before the structure caught. For at least half an hour the danger was averted by men in the cupola with buckets of water, but gradually the flames gained a foothold. The firemen, meanwhile, continued to play on the stables. Had a section of hose been carried up stairs to the cupola and a stream played upon the roof the damage to the hotel would not have been $100. When a stream was at last sent to play on the hotel it was beyond hope. The firemen were badly handled and the force seemed demoralized for the first time since its organization.

When the flames were first seen the guests poured out of their rooms and sought safety in flight. Some of the guests ran out in a half-dressed condition; others dressed in the passageways and seized their gripsacks as they ran. None of the guests lost much excepting Mr. Selim Franklin, who was absent at Nanaimo and had all his personal effects burned.

A small stable adjoining the livery stable on the east, and the property of Mr. F. Adams, was burned with a quantity of hay.

About 5 o'clock word was telephoned to the Esquimalt dockyard for assistance, and Mr. Beucke, chief engineer, rode to town, but by this time all danger was over and the dockyard steamer was not sent up.

Citizens generally did all in their power to save property from destruction, and one of the heroes of the occasion was Capt. Martley, A. D. C. to the lieut.-governor, who was one of the first to enter the burning hotel and worked like a Trojan till all danger was over.

Return of Her Royal Highness.

H. M. S. Comus returned from Burrard Inlet about 3 o'clock on Sunday afternoon and Her Royal Highness the Princess Louise landed at 5 o'clock and was driven to Government House.

ARREST OF A DESPERADO.—Last evening about 6 o'clock Mr. Loshe, of the Bank Exchange saloon on Yates street, reported that his till had been robbed to the police authorities. Officer Hough was instructed to look after the case and being provided with a description of the man who had been seen loitering round, he at last found him in the St. Nicholas Hotel. On attempting to make the arrest, however, the man presented a revolver at him, and it was only after a sharp struggle and assisted by two other men that the officer at last succeeded in getting the revolver from him and the handcuffs on his wrists. On being taken to gaol an amount of money corresponding to that taken from the Bank Exchange saloon was found on him. The prisoner gave his name as Charley Williams, from Yale, and he seems to be a stranger here. He will appear in the police court this morning.

GOOD NEWS FROM CARIBOO AND BRIDGE RIVER.—A party of prospectors have struck an excellent paying gold-bearing creek in Cariboo district west from Keithley and Swift rivers. It prospected remarkably well and report says will pay from $5 to $10 per day to the hand. A mile or so was prospected with the above results. Simultaneously with this report comes the news that the Indians have disposed of about $4,000 worth of golddust at Lillooet taken from Bridge river, about 80 miles west of Canoe creek.

SUDDEN DEPARTURE. A. McBroom, who has kept a grocery store on Yates street near Broad for some years, departed some time yesterday morning for the American side. He leaves heavy liabilities undischarged, owes the Agricultural Show $30 for the restaurant privilege and held a considerable sum as stakes deposited with him by parties who betted on the late races. It was rumored last evening that his departure had something to do with the late fire and that the police have telegraphed for his extradition.

AT KOOTENAY.—Word has been received by the Rev Coverdale Watson, of this city, that Rev. James Turner, who left Cariboo about the beginning of August, arrived at Kootenay on the 11th ult. He was intending to hold service the following Sunday at Wild Horse Creek, being the first Protestant missionary who has visited that locality, and then go on to Fort McLoed on his way to Winnipeg, which place he hoped to reach in five or six weeks from the date of writing. His many friends in British Columbia will be glad to learn that he is not the Rev. Turner who accidentally shot a lady in Manitoba a few weeks ago.

BLASTING COMPLETED.—The heavy blasting job on Wharf street for the foundations and lower stories of Hon. R. Finlayson's new warehouses was completed yesterday afternoon. Building the walls will now progress rapidly.

Supreme Court.

(Before the Hon. Mr. Justice Gray.)

MONDAY, OCT., 2nd 1882.

IN EQUITY.

The Trustees of the Victoria School District *vs.* the Corporation of the city of Victoria. JUDGMENT.

This case came on for argument on the 8th of August on motion of Mr. Drake on behalf of the defendants, to dissolve the interim injunction granted on the 15th of July previous to restrain the defendants, their servants and agents, from opening a public street or highway, through the reserve known as the school reserve in the Victoria district. At the close of the argument on that day, it was ordered that notice of the proceedings be served on the Attorney-general on behalf of the Crown in order that if deemed advisable, the Crown should be made a party, it being contended that the Crown was the owner in fee of the reserve in question, and had given the requisite permission. It having been shown to the Court by affidavit that such notice was duly served and that the Attorney-general declined to intervene on behalf of the Crown the argument was resumed on the 25th Sept. and judgment is now delivered.

In this case the Hudson Bay Company under its original grant of Vancouver Island from the Crown had the undoubted right to dispose of the land in such way as it deemed most advisable for colonization and settlement.

It laid out the city of Victoria and adjoining districts, sold lots, gave conveyances, created fees, and published maps and plans of the city and neighboring districts, by which and in accordance with which, tenures were bought, sold and held, public parks, squares and reserves, defined and laid out.

After numerous acts and deeds of this character and description, it subsequently for good pecuniary consideration, surrendered and reconveyed to the Crown all portions of the island not so alienated or affected, and all the rights thereto vested in the company.

In that deed of surrender and reconveyance it excepted by name, the reserve granted and known as the church reserve in which the fee had been transferred by the company and several other pieces and parcels of land specified and described which it retained for itself, but it did not except or refer to by name the public park, Beacon Hill, the school reserves etc.

The reconveyance in words transferred to the Crown, except as to the parts so specially excepted, all the rights to the remainder then "vested in the company." "And all the estate, rights, title, interest and probably whatsoever of the said company into and out of the same premises."

These facts are established by the original grant from the Crown to the Hudson Bay Company, dated the 13th of January 1849, by the subsequent surrender and reconveyance to the Crown dated 3rd of April 1867, by the intermediate plans and surveys of the city of Victoria and the surrounding districts in which the public parks, Beacon Hill, the Government grounds and the school reserve in question were defined and set forth.

Of these plans and surveys—the first is an official map or plan made and published by the Hudson Bay Company in 1858, in which the present school reserve in question appears *en bloc* in the district adjoining the city of Victoria and designated thereon as sect. 70. This plan was kept at the head office of the company in the city of Victoria, and on the surrender to the Crown, transferred to and kept in the Department of lands and works. The second is a map or plan of the district adjoining the said city and surrounding the said reserve—made in 1860 by Robert Homfrays, Esq., under the direction of the said company for the purpose of selling the lots in the district surrounding the reserve in question, by which at that time the surrounding lots were sold by the company and on which plan the said reserve is laid out as in the first plan but described thereon, not by the number 70—but as the "school reserve," and which plan was and is now filed in the land registry office. Other maps and plans were also produced and shewn to the court, phich were regarded as having received public recognition, though it was not shown that they had been made by or under the directions of the Hudson Bay Company. Among them one made as alleged from the official map by J. Despard Pemberton in 1861 thereon described as surveyor-general, and another at a later date in 1872 by Wm. D. Patterson, L. S and C. E. On both of which plans, the reserve in question is as last mentioned similarly set out and described.

By affidavit it is stated and shown that the plan made by Robert Humfray, Esq., was for the purpose of selling the lots referred to on that plan in 1860; that numerous lots were sold by the company in accordance with that plan in 1860, and again in 1863, bounded as set forth on the plan by this school reserve on three sides, and as far back as 1857 sections 74 and 75 adjoining it on the fourth side were severally sold and conveyed by the company to J. D. Pemberton and B. W. Pearse, Esqs., and an indefeasible title thereto issued by the company in August, 1866, pending the negotiations, but previous to the conveyance to the Crown.

The affidavits of Leigh, Jessop, Finlayson, Tiedeman and James Fell, old residents of the city of Victoria and Victoria district, show that from 1857 and 1858 down to 1867, the date of the reconveyance, the said reserve had been used for school purposes and none other; that a school house was erected thereon by the company and, according to Finlayson's second affidavit, was paid for by the crown on the transfer in 1867. Mr. Finlayson in his first affidavit states that he knows "that piece or parcel of land called on the official map of the city of Victoria and also on the Hudson Bay Company's map of 1859, compiled by O. Tiedeman, as the 'school reserve,' which said land is situate at the east end of Fort street and Yates street, in the city of Victoria, and believes that from about 1853 such land had been used for public school purposes; that the said piece of land was reserved or dedicated for public school purposes by the Hudson Bay Company when the town site was laid out in or about the year 1850, and some time after this year the Hudson Bay Company erected a school house on the said land for the education of the children of the early settlers, which is now used, he believes, for the high school; that from 1843 to 1872 he was an officer of the Hudson Bay Company, stationed at Victoria." His second affidavit qualifies the first by stating that the school reserve was not laid out until 1857 or 1858, and that it was not for a public school, but for school purposes.

There can be no question that by the reconveyance and transfer the fee in the piece of land called the school reserve became vested and now stands vested in the Crown; but the question is, does it stand freed from prior obligations created by the company, or is it held for any and what purpose, and has the crown indicated by its action that it recognizes the obligation and accepted it for the purpose contended for?

First, was there any dedication by the company previous to the reconveyance, and after such dedication and the rights created by the action of the company in selling the surrounding lots, could the company transfer the reserve freed from the rights thus created and acquired?

A dedication may be defined to be a gift, by one having the power of alienation, of certain property or funds for a particular purpose, creating thereby on acceptance a trust incident to the continued enjoyment of the property or funds; and on the subsequent acquisition of rights resulting from such dedication and acceptance, when of a public nature, an estoppal in *pais* or otherwise from the said property or funds being applied by the representatives of the donor to any other than the purpose indicated, unless so authorized by the paramount authority the legislature.

The English cases and authorities turn more on the dedication of roads and highways, the practice of dedication for other public purposes, such as education, etc., in the laying out of towns and districts being of more modern growth, or at any rate more extensively practiced in newly settled countries, where the land has not been preoccupied. The American cases therefore afford us a better guide; but in a very recent English case—Turner *vs.* Walsh in 1881, on appeal to the Privy Council from New South Wales (L. R. 6, Ap. C. 636), Sir Montague Smith lays down the principle in terms sufficiently broad to include dedications for other purposes as well as roads. He says (p. 639): "The presumption of dedication may be made when the land belongs to the Crown as it may be when the land belongs to a private person. From long continued user of a way by the public, whether the land belongs to the Crown or to a private owner, dedication from the Crown or the private owner, as the case may be, in the absence of anything to rebut the presumption may be and indeed ought to be presumed." At 642: "The proper way of regarding these cases is to look at the whole of the evidence together to see whether there has been such a continuous and connected user as is sufficient to raise the presumption of dedication; and the presumption, if it can be made, then is of a complete dedication coeval with its early user."

Thus there would be nothing inconsistent in the presumption of a dedication of the present nature even as against the Crown itself with reference to Crown property; still less could such an objection avail against an acceptance by the Crown of property thus charged; but an examination of the original grant from the Crown in 1849 shows that the Crown reserved the power to revoke the grant, *without prejudice to such disposition as might have been made in the meantime* by the company of any land on the Island for the purpose of colonization and settlement, and as should have been certified to one of Her Majesty's principal secretaries of state. A notification which I think may now be well assumed, from the subsequent action of the Crown, and the filing these plans in the public departments as mentioned.

The American cases on this point are extremely numerous and extremely clear and those I now refer to can be found in the law library, namely, Livingstone *vs* the mayor of New York, 22 Am. Decisions, 623; Abbott *vs.* Mills, 23 do , 222; State *vs.* Catlin, 23 do., 231; The Trustees of Watertown *vs.* Cowan, 27 do., 81; Brown *vs.* Manning, 27 do., 255. From these cases the following principles are deducible, in fact distinctly laid down: First—That it is not necessary in order to show a dedication of land to the use of the public, to prove that it has been appropriated to such use for so long a time that a grant may be presumed. It is sufficient if the owner thereof by some unequivocal act manifested his intention of dedicating it to a public use, and in consequence of such intention so manifested individuals have purchased from him property which will be materially affected if such intention be changed. Secondly—It cannot be devoted to any use by the grantor or his assignees other than the use so indicated; nor is it necessary on the part of the original grantor that there should be any special covenant or agreement that such dedication should be continued; nor is it necessary that any specific lapse of time should take place from continued user during which time a dedication could be presumed; provided that any clear and defined act of the donor indicated the intention of a dedication for the purpose contended for. Thirdly—That an acceptance of such lands and their use by the public for the object intended, works an estoppel in *pais*, precluding the donor and all claiming in his right from asserting any ownership inconsistent with such use.

Apply these principles. There cannot be a doubt that while having the power, the Hudson Bay Company dedicated that reserve to school purposes. Without going into detail it may be said that the Crown, represented and acting by the legislature, by a continued series of legislation, commencing in 1865, pending the negotiations but previous to the actual execution of the deed of reconveyance in 1867, and thence on by successive acts in 1869, 1870, 1879, and so on to the present period, indicated their acceptance of the land, and continued the use to which it had been dedicated, by the establishment of a system of public education; creating trustees of the public school districts, to whom the care and custody of the school lands were given to be held for the purposes named and subject to rules and regulations of the Lieutenant-Governor in council, to take charge of the said school lands and buildings set apart for general school purposes and applicable therefor, however acquired, whether by original reservation by the government or otherwise—by the subsequent expenditure of large sums of public moneys, amounting to $30,000 or $40,000 in buildings and improvements on the lands and reserve in question, for school purposes—an acceptance so unequivocal that it is too late now to say that it was not taken and held by the Crown with the trust attached to it, that it should be used for the purpose of its original dedication and that purpose only. It is unnecessary for me to say that in this country the public interests are represented by the Crown.

It is contended on behalf of the defendant that as the fee is in the Crown and that under the public school Act of 1869 sect. 41, all school buildings and school lands are under the control of the Lands and works Department, and that under sect. 73 of the land act 1875 (con. statute c. 98) the Chief Commissioner of lands and works has power to make public highways etc, therefore notwithstanding such dedication the Crown has a right to give permission to the corporation to extend their street through the reserve, and moreover, that such extension is not inconsistent with—but really conducive to the object of the dedication.

On the first contention I do not think the powers given either under the land act 1875, or the public school act 1869 were intended to apply to a case like the present. As to the 2nd it is not alleged nor is there the slightest pretence in the application by the defendants to the chief commissioner of lands and works as produced in evidence, of alleging that the object was in any way to promote the purposes of the dedication, or advance the interest of the school; nor is there any allegation or evidence—that even so far as the public interests of the municipality represented by the defendants are concerned, is the benefit to be derived from the extension of the street sufficient to make the object of the original dedication subordinate thereto; nor indeed is any reason whatever of public necessity or importance assigned; while on the contrary, the affidavit of one of the trustees, Alex. Wilson states that it will be most detrimental to the purposes of the dedication. will interfere with the buildings for school purposes at present, standing thereon, will divide the reserve, and that "pecuniary compensation by way of damages for the trespass of the defendants and the severance of the school reserve will be inadequate to the damages sustained by the scholars and others attending the school."

I am bound to say, that in no way has it been shown to the Court or contended that such extension is a work of necessity or even of general public convenience.

A technical objection has been raised that the school trustees are not vested with any such estate or interest as would on their behalf warrant the issuing of an injunction; but under the enlarged provisions of the Judicature Act of 1879 the objection does not carry the weight it formally had; nor is the injunction asked for as against any officer of the Crown or the Crown itself. By declining to intervene after the notice to the Attorney-General, the Crown shews that it does not regard the act of the defendants as tending in any way to the general public interests, of which the Crown is the guardian, but simply as a matter between the corporation of the city and the trustees of the public schools in a particular district. There is no act of the legislature authorizing the Crown to sell, encumber, partition or set off any portion of this reserve, or to devote it to any purpose other than that to which it was originally dedicated. It was no part of the municipality when it was dedicated and accepted, and no presumption therefore arises of a corporate control over it. The subsequent extension of the city limits so as to embrace it, would not divest it of the trust with which it was before clothed; and I am clearly of opinion that an action at common law against the intruders would afford no adequate remedy.

The principle which governs this case equally applies to the other public reserves, the public parks, Beacon Hill, etc., and therefore is deserving of grave consideration.

The case is not without its difficulties: but in the absence of specific legislation authorizing the lieut. governor in council to change the tenure on which the Crown accepted and now holds this school reserve, I consider the permission granted to the corporation carried with it no authority. The fee is undoubtedly in the Crown; but it is in the Crown to be held and used as defined by law.

The application to dissolve the judgment must be refused and the injunction continued until further order.

FUNERAL.—The last sad rites of the living to departed worth and usefulness were performed on Sunday afternoon over the remains of the late Mrs. W. R. Clarke of this city. A large number of sorrowing friends and acquaintances assembled at her late residence corner of Quadra and Chatham streets, which number was largely increased at St. John's Church where the rector, Rev. P. Jenns conducted the funeral service in a very impressive manner. The hymn "Come unto me and rest" was effectively rendered by the choir; and as the coffin, which was covered with floral decorations, was being taken out of the sacred edifice, Miss Bagnall played the "Dead march in Saul." The pall bearers were Messrs D. Lenevue, P. McQuade, Thos. Earle, G. Morrison, Dr. Powell and Hons. R. Finlayson, Walkem and Beaven. A large number of carriages followed the hearse to Ross Bay Cemetery.

MASONIC FUNERAL.—The funeral of the late Robert Laing was conducted yesterday afternoon under the auspices of the Victoria-Columbia Lodge of Free and Accepted Masons, Royal Arch and Rory Croix Chapters, of which the deceased was a member, were also represented. Rev. R. H. Smith, Grand Lodge chaplain, conducted the very impressive Masonic burial service. A large attendance of brother Masons as well as relatives and acquaintances evinced the deep respect in which the deceased captain was held. The following gentlemen acted as pallbearers: Eli. Harrison, Sen., and E. C. Neufelder, Royal Arch Chapter; R. Elder and A. R. Milne, Rory Croix Chapter; Captains Rudlin and Scott, Victoria-Columbia Lodge, together with Hon. R. Finlayson and W. P. Sayward, Esq.

GRAPES AND FILBERTS.—Pimbury Brothers have succeeded in raising on their farm at Salt Spring Island grapes of a hardy northern variety and as good as any produced in Eastern Canada. This variety of grapes can be easily grown in the open here; but the cultivation of the California grapes, which has been attempted here and failed, seems to be impossible except under glass. Pimbury Brothers have also raised with much success English filberts.

"THE CITY OF LONDON."—Mr. John Nicholles, of this city, has been appointed agent of this wealthy English fire insurance company, the chairman of which is the present Lord Mayor of London. Mr. W. J. Callingham, formerly in the dry goods business on Fort street, and who will be remembered by many as a very talented and enthusiastic amateur actor, is the general agent in San Francisco.

THE RACES.—In the matter of the protest entered against the prize for two-year-olds being awarded to the Princess Louise, the winner, the board of managers of the Agricultural Show yesterday decided that the mare was overage; that her rider dismounted before being weighed. Both these points were regarded as disqualifying the animal and the purse was awarded to the second horse which is also protested against and the case will be be heard at 2 p. m. on Friday.

NICOLA.—Mr. John Gilmore, Mr. A. Irving and Mr. R. M. Woodward, extensive stockraisers from Nicola, were among the exhibitors at the recent show. Mr. Gilmore has started for home, and Messrs. Irving and Woodward will leave on Wednesday.

Municipal Police Court.

(Before Hon. A. F. Pemberton.)

MONDAY, October 2nd.

L. Lowenberg was charged with an infraction of the sanitary law in regard to the neglect of alteration of some water closets concerning which he had been notified on the 6th.

He was allowed until Friday to complete the alterations.

The case against Fiernon and Pollock for careless driving, through which, it was alleged a Chinaman was injured, was dismissed for want of direct evidence.

Mary Burns who was remanded from the 29th on a charge of vagrancy was further remanded for a week, in order that she might be sent to Sitka of which place she is a native.

A case against two Indians for fighting was dismissed.

BURGLARY.

The remanded case of Fook Sing, charged with entering the house of J. E. McMillan, Cormorant street, on the morning of the 29th inst. was proceeded with.

Officer Hough deposed that on the morning in question the prisoner was given in charge by Mr. McMillan, Jr. A bunch of keys was found on him, also two cotton sacks. On searching his house on Cormorant street, another Chinaman Ah Wong was found, and in all, 4 separate bunches of keys were discovered.

Richard McMillan stated he found the prisoner crouched in his garden at 2 a. m. and that he took him to officer Hough and on the way he threw down three of the bunches of keys.

Frank Sylvester stated he resided on Pandora street and identified the various bunches of keys and some tools produced as having been stolen from him by the prisoner, who worked for him sawing wood some time ago.

This case as well as that of Ah Wong for having stolen keys in his possession, and that of Theodore Heaton charged with stealing blankets from the Driard were remanded till to-morrow.

A MAGNIFICENT ANIMAL.—The grey stallion "Oregon Prince," belonging to Robert Stevenson, of Chilliwhack, took the second prize at the show. He stands 17½ hands high and weighs 1859 pounds.

THE CRAYON DRAWINGS.—The crayon and water colors which took first and second prize at the show although exhibited by Miss Maclure were exhibited by her brother Mr. Samuel Maclure.

RACE MEETING.—A race meeting has been fixed to come off at Spence's Bridge on the 17th and 18th October. There will be several interesting races with good purses.

THE CIRCUS.—Mr. Van Horn has engaged the lot at the rear of the Blue Post to pitch the tent of the Sherman Circus, which will arrive here Thurrday and perform the same evening.

LICENSING COURT.—Yesterday morning it was announced in the police court that the licensing court would be held that day week at 12 o'clock.

CAUTION.

We beg to call the attention of the trade and the public to the well known quality and elegance of finish of our Gold Cases, guaranteed by us to be of eighteen karat Gold, U. S. Mint assay or of fourteen karat Gold, as may be stamped, and also to our mode of selling the same, charging only for the ACTUAL WEIGHT of the gold used, and not for the base metal comprised in springs, key pipes, filling of crown, etc. To illustrate which a tag accompanies each one of our Gold Cases, which plainly indicat not only the gross weight of the case, but also the NET weight of the gold.

In explanation of the above we desire to say that the old plan of charging for the gross weight of the case, as if it were all gold, worked well enough as long as the manufacturers were content with the amount of brass and steel actually required in its construction; but when the business was degraded into a contest as to who should get the most base metal into the least quantity of gold and call it a GOLD case, then the time came when, in the interest of dealers in American Watches, it became necessary to adopt a plan of selling, showing the buyer exactly how much GOLD each case contained.

To avoid imposition, purchasers of Waltham Watches will observe that every genuine watch, whether gold or silver, bears our trade mark on both case and movement. Gold cases are stamped "A. W. Co.," and guarantee certificates accompany them. Silver cases are stamped "A. M. Watch Co., Waltham, Mass., sterling silver," and are accompanied by guarantee certificates, signed R. E. Robbins, treasurer. The name "Waltham" is plainly engraved upon all movements, irrespective of either distinguishing marks. This caution is rendered necessary by reason of the fact that our cases are frequently separated from our movements, and put upon worthless movements of other makers and vice versa, thus affecting injuriously the performance of the watches, and vitiating our guarantee, which is intended to cover only our complete watches wholly made by us. It is necessary also, because it is so notorious as to be a public scandal that there is great fraud in the metal quality of both gold and silver cases as now generally sold. We have demonstrated by frequent assays that many gold and silver cases offered in the market are debased from 10 to 20 per cent. from the quality they assume to be. This is a fraud upon the purchaser, and accounts for the low price at which such cased watches have been sold.—AMERICAN WATCH COMPANY, Waltham, Mass. dw

White vs. Chinese Labor.

There are those who have stoutly contended, and still contend, that certain industries cannot be successfully carried on in this country, indeed on this coast, without Chinese labor. We shall confine the present remarks to two—cigar-making and fish-canning. It has been broadly held that the cheaper labor and more nimble fingers of the Mongol are essential to the manufacture of cigars on the Pacific coast—that is, so as to compete successfully with other countries. Acting under that conviction those embarking in cigar making in San Francisco employed Chinese labor almost exclusively. But, as has been the case in boot and shoe making, in tailoring and other branches of industry in San Francisco, "John" has to a great extent advanced from the position of employee to that of boss manufacturer, and it is an undeniable fact that the great bulk of the cigars manufactured in San Francisco to-day are not only mannipulated by Mongolian fingers, but are the product of Chinese establishments. Two or three years ago Mr. John Kurtz embarked in the manufacture of cigars at Victoria, and he courageously inscribed "No Chinese Labor" on his trade-mark. Friends doubted. Wise ones predicted failure. "You cannot," said they, "compete with Chinese labor in San Francisco; much less can you hope to compete with Chinese labor in Victoria." But Mr. Kurtz was not to be discouraged in this way. He had faith in white, free labor, and he pressed onward, adhering faithfully to his vow that no slave or Mongolian labor should be applied to the production of his cigars. And what has been the result? The favorite cigar in British Columbia to-day is the Kurtz cigar. It is found in every respectable establishment where cigars are kept and connoisseurs ask for it. There are to be found plenty of cigars manufactured by Chinese in San Francisco and in Victoria, and some of them have very fine names, too; but no connoisseur who has smoked the Kurtz cigar would tolerate them. Not only has Mr. Kurtz's adventure been entirely successful in so far as producing a first-rate article is concerned but he has been successful in securing the best trade of the country and, what is of vital importance, in demonstrating that the thing can be done with white labor at a satisfactory profit. In fact he has practically pushed Chinese cigarmaking to the wall. On patriotic grounds he would have a right to appeal to the country. But he has no need to do that. The superior quality of his cigars appeals irresistibly to the taste of the smoker. Oh! for a Kurtz in the canning business! We are persuaded that precisely the same results would follow, in so far as demonstrating the fact that white labor is preferable to the Chinese labor is concerned.—*British Columbian.*

NEW ARRIVAL OF PIANOS.—Messrs. Bagnall & Co. have the most splendid display of Pianos and Organs ever exhibited in the city; some choice Violins, Guitars, brass and nickel-plated Cornets, and everything pertaining to the music trade. BYLAW.

WHEREAS IT IS EXPEDIENT that regulations should be made as to the storage and carriage of Petroleum, Coal Oil, Naptha and other combustible matter within the City Limits.

BE IT ENACTED by the Mayor and Council of the Corporation of the City of Victoria as follows:—

1. No person shall keep in any wooden shed or building on storage or for sale any Petroleum, Coal Oil, Naptha, Burning Fluid or other combustible matter in quantities greater than 50 gallons, if contained in wooden casks, or 100 gallons if stored in metal cases, without a License from the Corporation.

2. No person without such License shall keep in any brick or stone building any of the aforesaid articles in quantities greater than 250 gallons if contained in wood, or 1,000 gallons if stored in metal cases.

3. Every License shall specify the building, street or locality, and the quantity in gallons of the combustible articles before mentioned which may be stored therein.

4. The premises in or upon which any of the combustible articles aforesaid shall be stored shall be open at all times to the inspection of the Corporation or its Officers.

5. The Corporation may, before any License shall be granted as aforesaid, require such precautions to be taken against fire as they may beem necessary.

6. No person shall remove on any dray, cart, waggon or other vehicle any combustible matter in quantities greater than 250 gallons at any one time.

7. Any person or persons refusing or neglecting to comply with any of the provision or requirements of this Bylaw, or guilty of any infraction thereof, shall upon conviction thereof be subject to a fine of not less than $5 or more than $50.

8. Eveay penalty imposed by this Bylaw may, togesher with the costs of conviction, be recovered in a summary manner before the Poiice Magistrate, or any Justice of the Peace having jurisdiction within the limits of the City of Victoria, and may be levied by distress and sale of the goods and chattels of the offender; and in default of payment of such penalty and costs, then by imprisonment of such offender for any term not exceeding one calendar month in one of Her Majesty's gaols.

This Bylaw may be cited as the "Petroleum Bylaw, 1892."

GENTLEMEN:—I TAKE THIS MODE OF EXpressing my thanks for the honor you have once more conferred by returning me with an immense majority to represent you in the Dominion Parliament.

Four times have I contested your district; but never before have I been returned by so large a proportion of the vote. This I deem especially gratifying, for I consider it the means taken by you to show your appreciation of my services. I sincerely hope that the course I may pursue during the next term will be such as to meet with your approbation, and that you will have no cause to think I have relaxed my efforts in the least to promote the various interests of the district.

DR. J. COLLIS BROWNE'S CHLORODYNE

THE ORIGINAL AND ONLY GENUINE.

Advice to Invalids—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.
